

GROWVista 2

GROWVista 2X-6

GROWVista 2X-8

FULLY VEGETATED MODULE

Dimensions

GROWVista 2.....	12 in x 24 in x 4 in
GROWVista 2X-6.....	12 in x 24 in x 6 in
GROWVista 2X-8.....	12 in x 24 in x 8 in

Saturated Weight

(weight range for GROWVista 2X modules is representative of the difference in using Extensive to Intensive growing media blends.)

GROWVista 2.....	29 lbs/sf
GROWVista 2X-6.....	34 to 41 lbs/sf
GROWVista 2X-8.....	39 to 56 lbs/sf

Approx. Storm water Retention

(based on using Extensive media)

GROWVista 2.....	1.35 gal/sf (2.15 in. rain/24 hrs)
GROWVista 2X-6.....	1.98 gal/sf (3.17 in. rain/24 hrs)
GROWVista 2X-8.....	2.61 gal/sf (4.19 in. rain/24 hrs)

Water Dispersal

GROWVista 2.....	12 gal/min/lf
GROWVista 2X-6.....	12 gal/min/lf
GROWVista 2X-8.....	12 gal/min/lf

MODULE (CONTAINER/TRAY)

Material	Recycled Plastic
Reservoir	1/3 gal Capacity
Handling	4 Built-in Handles for Easy Transport
Aeration/Irrigation	Built-in channel for air flow and/or irrigation supply

GROWING MEDIUM

Lightweight blend of engineered growing medium tailored to meet the specific regional requirements for optimal plant health. Growing mediums vary depending on design requirements and are available for extensive, semi-intensive, and intensive green roof designs.

VEGETATION

Pre-planted or planted on-site with standard or custom plant selections. Plant selections will vary depending on module and media selection. Species combinations may change depending on hardiness zone and local climate conditions.
